Committee Chair Schilling stated that for each item on the consent agenda that proposes a design approval, the Committee members had been provided with the environmental documentation prepared pursuant to the California Environmental Quality Act, which analyzed the impacts of the proposed projects, and with copies of all public comments received and responses prepared by the University. The members of the Committee had reviewed and considered the information contained in the environmental documents, including all comments received in writing or presented to the Committee that day, and had balanced the specific benefits of the projects against any unavoidable adverse environmental effects as reflected in the findings that were proposed for adoption by the Committee.

Upon motion duly made and seconded, the Committee approved the President’s recommendations and voted to present them to the Board.

4. **APPROVAL OF THE BUDGET FOR CAPITAL IMPROVEMENTS AND THE CAPITAL IMPROVEMENT PROGRAM, APPROVAL OF EXTERNAL FINANCING, AND AUTHORIZATION TO THE PRESIDENT TO DETERMINE COMPLIANCE WITH CALIFORNIA ENVIRONMENTAL QUALITY ACT AND APPROVE DESIGN, ELECTRICAL SWITCHING STATION 6, BERKELEY CAMPUS**

The President recommended that:

A. The 2010-11 Budget for Capital Improvements and the Capital Improvement Program be amended to include the following project:

The Berkeley campus shall satisfy the following requirements:

   (1) Interest only, based on the amount drawn down, shall be paid on the outstanding balance during the construction period.

   (2) Repayment of debt shall be from the General Revenues of the Berkeley campus and as long as the debt is outstanding, the General Revenues of the Berkeley campus shall be maintained in amounts sufficient to pay the debt service and meet the related requirements of the authorized financing.

   (3) The general credit of the Regents shall not be pledged.
C. The President be authorized to determine compliance with the California Environmental Quality Act for the Electrical Switching Station 6.

D. The President be authorized to approve the design of the Electrical Switching Station 6.

E. The President be authorized to execute all documents necessary in connection with the above.

[Background material was mailed to the Committee in advance of the meeting, and a copy is on file in the Office of the Secretary and Chief of Staff.]

Vice President Lenz stated that this item concerned Electrical Switching Station 6 for the Berkeley campus and reported that his office had reviewed the project.

Committee Chair Schilling asked when the campus became aware of the need for this additional switching station, since it was not in the original proposal. Vice Chancellor Edward Denton responded that an analysis conducted the prior year of the campus’ electrical distribution revealed both insufficient redundancy and a need for additional capacity. The campus did not have the capacity for a dedicated electrical switch for new campus research facilities such as the Stanley Biosciences and Bioengineering Facility and the Center for Information Technology Research in the Interest of Society (CITRIS). The sixth switching station could also accommodate the needs of California Memorial Stadium, which is undergoing renovation, as well as run the electricity for the whole campus if necessary.

Upon motion duly made and seconded, the Committee approved the President’s recommendation and voted to present it to the Board.

The meeting adjourned at 3:15 p.m.

Attest:

Secretary and Chief of Staff
