Senior Vice President Mullinix noted that the Committee had agreed to return to the Regents with further revisions of the building's facade, including the artwork involved, and of its landscape plan.

Upon motion duly made and seconded, the Committee approved the President's recommendations and voted to present them to the Board.

2. **COMMENTS OF REGENT LIGOT-GORDON CONCERNING SUSTAINABLE ENERGY**

Regent Ligot-Gordon commented that an important issue had been brought to his attention by students who have expressed their concern about caring for the environment and have organized in support of making energy sustainability a focus on every campus. He noted that The Regents manages 90 million square feet of buildings and a capital budget of \$350 million. He believed that, if the University is to become a leader in the field of sustainable energy, the buildings to be constructed should be built using "green building" standards. He announced his intention to propose an agenda item for the next meeting of the Committee that would promote the development of a University building policy to address the issue.

The meeting adjourned at 9:25 a.m.
