**deletions shown by strikeout, additions by underscoring**

## THE UNIVERSITY OF CALIFORNIA STUDENT FEE POLICY

Effective with the 1994-95<sup>1</sup> academic year, a Student Fee Policy affecting the Educational Fee and the University Registration Fee is established with the following provisions.

**A. The Educational Fee**

The Educational Fee is a Universitywide mandatory charge assessed against each resident and nonresident registered student. The Educational Fee is assessed uniformly across all campuses of the University.

In addition to funding programs and services supported in 1993-94 by the Educational Fee (such as student financial aid and related programs, admissions, registration, administration, libraries, and operation and maintenance of plant), income generated by the Educational Fee may be used for general support of the University's operating budget. For the first time, revenue from the Educational Fee may be used to fund all costs related to instruction, including faculty salaries.

In recommending to the Board the annual Educational Fee level, the President shall take into consideration the following factors:

1. the resources necessary to maintain access under the Master Plan, to sustain academic quality, and to achieve the University's overall mission;
2. the full cost of attending the University, including the cost of housing, food, healthcare, books and supplies, transportation, and other academic and personal expenses;
- 2 3. the amount of support available from various sources to assist needy students in funding the full cost of their education;
- 3 4. overall State General Fund support for the University; and
- 4 5. ~~student charges~~ the full cost of attendance at comparable public institutions.

---

<sup>1</sup>Revised May 20, 2004

The President shall solicit annually faculty and student views on the level of the Educational Fee, through the appropriate consultation processes.

The revenue from these additional increases may be used to maintain the quality of the academic program, to provide financial aid, and to aid the programs in attracting and enrolling students.
- F. Effective fall 2004, the Nonresident Tuition Fee be increased by 20 percent for all nonresident undergraduate students and nonresident graduate academic students.
