

## Office of the President

### TO MEMBERS OF THE NATIONAL LABORATORY COMMITTEE:

#### DISCUSSION ITEM

*For Meeting of January 22, 2020*

### **ANNUAL REPORT ON FISCAL YEAR 2019 NATIONAL LABORATORY PERFORMANCE RATINGS**

Lawrence Berkeley National Laboratory (LBNL), Los Alamos National Laboratory (LANL), and Lawrence Livermore National Laboratory (LLNL) have received their annual fee and award-term determinations from the U.S. Department of Energy (DOE) and the DOE National Nuclear Security Administration (NNSA) based on their fiscal year (FY) 2019 performance against established performance evaluation criteria. The federal FY runs from October 1 through September 30.

LBNL was awarded 94 percent of available earned fee for FY 2019 and is eligible for a prime contract award-term extension, which is consistent with past performance. LBNL has successfully received all possible contract extensions since the start of its current contract in 2005. LBNL continues to combine exceptional scientific expertise with advanced scientific capabilities and forward-thinking strategic planning to support DOE mission goals to produce science of the highest quality across multiple scientific disciplines. The Laboratory received an overall rating of A under goals for Mission Accomplishment; A- for Research Facilities, S&T Program Management, Business Systems, and Leadership/Stewardship; and B+ for Environmental Management, Infrastructure, and Safeguards/Security. These grades are identical to last year's grades, with the exception of an improved grade for Business Systems.

With respect to LANL and LLNL, DOE/NNSA has not publicly released the FY 2019 performance evaluation reports for Triad National Security, LLC, and Lawrence Livermore National Security, LLC, as of January 10, 2020.

#### **Key to Acronyms**

DOE	Department of Energy
FY	Fiscal Year
LANL	Los Alamos National Laboratory
LBNL	Lawrence Berkeley National Laboratory
LLNL	Lawrence Livermore National Laboratory
LLNS	Lawrence Livermore National Security, LLC
M&O	Management and Operating
NNSA	National Nuclear Security Administration
