#### Internal Audit Plan FY 2021 - 22

## Internal Audit Plan Objectives

- Improve the effectiveness of campus governance, risk management and control processes;
- Assist campus leadership in the discharge of their oversight, management, and operating responsibilities;
- Assist management in addressing the University's significant financial, operational and compliance risks and making informed risk acceptance decisions;
- Support and leverage campus efforts to identify, evaluate and mitigate risks;
- Support management's restructuring and budget coping strategies;
- Serve the needs of campus/laboratory leadership while addressing broader issues from a systemwide perspective;
- Support the evolution of the Systemwide Compliance Program; and
- Meet the challenge to enhance the value of the Internal Audit Program.

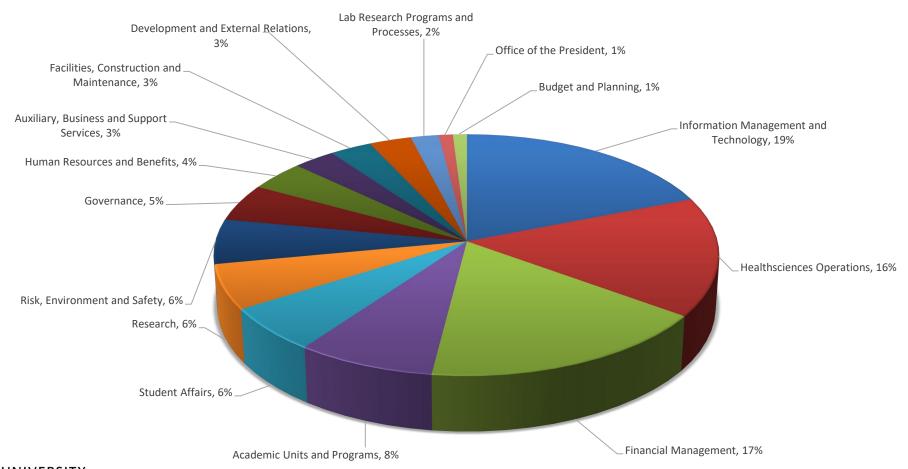

# Internal Audit Plan Development Risk Assessment Process for 2021-22

Solicit input from the Regents, Senior Management, systemwide and campus management Rely on existing risk identification processes wherever they exist (e.g. Compliance, Risk Services, functional areas) Gather and assess input from external sources (e.g. regulatory, industry) Share information among campus/laboratory auditors to leverage input and ensure consistent consideration of risks of interest, industry sources

The result of the risk assessment is an informed perspective on the current risk environment – including a prioritization of risks that are scalable to available resources.

# Planned Projects by Functional Area

This chart illustrates the distribution of our FY2021-22 planned projects by functional area. Over half of the planned project hours are allocated to health sciences operations, information management and technology, and financial management.

# Systemwide Audits

Systemwide audits are conducted for the purpose of reviewing an existing or potential issue across the University system to identify and address common risk areas. These audits have a common scope and approach and are usually conducted by the local Internal Audit departments at each University location, and overall results are typically summarized in a systemwide audit report.

### Executive Compensation\*

- Evaluate annual executive compensation reporting information for completeness, accuracy and conformance with requirements
- Assess controls supporting annual executive compensation reporting

#### Technology Transfer

 Evaluate campus processes, data collection, analysis and reporting to identify opportunities to strengthen and streamline technology transfer processes and controls to support systemwide business objectives

### Police Complaint Process

- Verify complaints are being taken properly and to ensure all employees are adhering to policies, procedures and individual departments' standards
- Audit addresses a recommendation the from Presidential Task Force on Universitywide Policing

#### Donations Review

 Retrospective review of donations to the campus to identify admissions decisions that could have been influenced by these donations

UNIVERSITY OF CALIFORNIA

<sup>\*</sup> Performed by the campus Internal Audit departments on a rolling three-year cycle

# Cybersecurity

The FY2021-22 Audit Plan includes the following systemwide audits identified by the Cybersecurity Audit Team to address cybersecurity risks.

Vulnerability
Assessment and
Penetration
Testing

- Detailed scanning for vulnerabilities and penetration testing to identify opportunities for improvements in security controls
- Review the vulnerability management process overall to identify opportunities for improvement to better manage cyber-risks

Cyber Resiliency Audit - UC Health Focus

- Review UC Health locations' preparedness to respond to, and recover form, a significant cyber-attack
- Review the locations' incident response, disaster recovery and continuity plans and procedures and assess their overall preparedness to respond and recover from a major cyber-attack

UC Health Data Warehouse Phase 2

- A follow-on to the phase 1 review which focused on cyber-risk oversight and governance of the Clinical Data Warehouse
- Detailed technical assessment of information security controls for the UC Health Data Warehouse

# Highlights of Consolidated Audit Plans

Personnel:	FY22 Plan	Prior Year Plan
Authorized staff level	110 FTE's	112 FTE's
Average staff level	104 FTE's	102 FTE's
Distribution of Planned Activities:		
By Audit Activity Type (hours/%):	FY22 Plan	Prior Year Plan
Audits	92,553 64%	94,383 64%
Advisory Services	38,382 26%	38,122 26%
Investigations	<u>16,539</u> <u>11%</u>	<u>15,615</u> <u>10%</u>
	147,474 100%	148,120 100%
	FY22 Plan	Prior Year Plan
By University area:

The table to the left displays the deployment of the Available Resources among our activities by type (audit, advisory services and investigations). While the mix over time tends to shift somewhat between Investigations and Advisory Services, the commitment of the majority of our efforts to a substantial program of regular audits remains evident.

**Resource Allocation** 

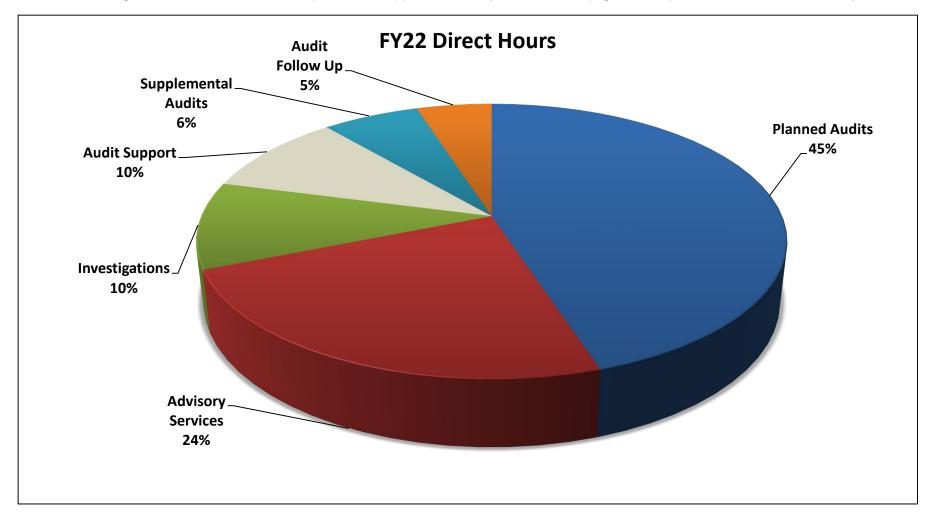

**Investigations** 

**Audit Support Activities** 

**Total Direct Audit Hours** 

### Distribution of Direct Hours

The chart below depicts the direct audit coverage of our FY22 plan. It demonstrates that over half of our planned direct hours have been allocated to planned and supplemental audits, with the remaining time allocated to our other lines of service, advisory services and investigations, as well as audit follow up and audit support activities. (refer to the next page for the specific detail of the direct areas).

### Distribution of Available Hours

	F	<b>/22</b>	3/31/2021 An	nualized
	Plan	Percent	Actual	Percent

Systemwide Audit Support	3,700	2.0%	5,469	3.0%
Computer Support*	4,558	2.4%	4,093	2.3%
Quality Assurance	1,315	0.7%	1,151	0.6%
Total Audit Support Hours	15,597	8.4%	15,384	8.5%
Total Direct Hours	163,071	87.3%	152,395	83.8%
TOTAL NET AVAILABLE HOURS	<u> 186,706</u>	<u>100.0%</u>	<u> 181,799</u>	<u>100.0%</u>

#### **Distribution of Available Hours**

The table to the left provides a more detailed breakdown of planned time as a basis for ongoing accountability. From this detail the continuing commitment to timely audit follow-up is displayed by the plan to invest nearly 8,000 hours. The category of Compliance Support is intended to facilitate our efforts to integrate the Compliance and Audit Programs into joint efforts such as annual plan development, project coordination and ongoing risk monitoring.

<sup>\*</sup> Includes time spent on audit management system upgrades and functional enhancement

# **Appendix 1 – List of FY 2021-22 Audit and Advisory Service Projects by Location**

This appendix lists all the planned audit and advisory service projects at each location, their proposed general scope and corresponding planned hours.

LBNL - Audits	Scope Statement	Hours
FY21 Cost Allowability	As required by the Department of Energy (DOE) contract, LBNL prepares, certifies and submits a	900
	Statement of Costs Incurred and Claimed (SCIC) after each fiscal year. This statement serves as	
	LBNL's claim and certification that the costs incurred and claimed are allowable in accordance	
	with the terms of the contract. DOE Contract 31 Clause I.149 requires LBNL to have an overall	
	internal audit strategy for auditing costs incurred under the contract for compliance with	
	allowable cost provisions.	
FY21 UC National Laboratories (UCNL) Home Office	Based on DOE Contract 31 Clause H.4, the DOE Contracting Officer requests Internal Audit to	450
Costs	perform an annual audit to verify whether UCNL Home Office costs charged to LBNL are	
	allowable, reasonable, allocable, and within the terms of the contract. The results of this audit	
	form the basis for DOE's approval and final determination of UCNL home office costs for the	
	year.	
Office of Management and Budget Circular A-123 IT	The audit uses a risk-based approach to identify and review specific IT controls related to Lab	450
General Controls	financial reporting and assess effectiveness of cyber security management. This project is	
	performed to comply with OMB Circular A-123, as a component of the Federal Managers	
	Financial Integrity Act (FMFIA). OMB A-123 defines management's responsibility for ensuring	
	adequate internal controls reside within the financial processes and reporting structure	
	throughout the Laboratory.	
Gifts Program	The gifts program audit will assess compliance with DOE Contract 31 Clause H.27 Contractor-	450
	Funded Institutional Supporting Research and Development Program and LBNL policy	
	requirements on the use of gift funds for research. The audit will evaluate the adequacy of	
	internal controls over the gifts acceptance and administration process. The scope includes	
	Contractor Supported Research funds from the Berkeley Lab Foundation, UC Fee, or other	
	sources of UC funding.	

Subcontract Audit - Perma-Fix OTD Phase VII #	Based on requirements in Procurement SP 42.2 (Allowable/Incurred Cost Audits), we will	500
7530269	perform an incurred cost audit of Perma-Fix subcontract # 7530269. This is a time and materials	
	construction subcontract for the Old Town Demolition Phase VII project that includes the	
	demolition of B7 & B7C and disposal of associated wastes. The scope will be Perma-Fix's	
	subcontract valued at approximately \$8M to determine if invoiced costs comply with the	
	subcontract terms and conditions, and are allowable, allocable, and reasonable under	
	applicable federal cost principles.	
Subcontract Audit - Perma-Fix ERRG Joint Venture #	Based on requirements in Procurement SP 42.2 (Allowable/Incurred Cost Audits), we will	500
7501762	perform an incurred cost audit of Perma-Fix Engineering Remediation Resources Group Joint	
	Venture subcontract # 7501762. This is a time and materials construction subcontract for the	
	Bayview Parcel 1 Cleanup and Site Prep project. The scope will be Perma-Fix ERRG's	
	subcontract valued at approximately \$21M to determine if invoiced costs comply with the	
	subcontract terms and conditions, and are allowable, allocable, and reasonable under	
	applicable federal cost principles.	
Subcontract Audit - Physical Sciences, Inc. #	Based on requirements in Procurement SP 42.2 (Allowable/Incurred Cost Audits), we will	500
7376689	perform an incurred cost audit of Physical Sciences, Inc. subcontract # 7376689. This is a cost-	
	plus-fixed-fee subcontract for research services for Nuclear Science Division to develop	
	radiation detection systems for law enforcement vehicles. The scope will be Physical Sciences'	
	subcontract valued at approximately \$1.4M to determine if invoiced costs comply with the	
	subcontract terms and conditions, and are allowable, allocable, and reasonable under	
	applicable federal cost principles.	
Wildfire Prevention Management	This is an assessment of the Lab's Wildland Fire Management Plan (WFMP) for compliance with	500
	requirements. The WFMP has been revised to comply with Federal and local requirements and	
	include a vegetation management plan. The Lab's proximity to a heavily wooded area	
	surrounded by high-density residential housing, makes wildfires a threat. In 2017, a grass and	
	wildland fire occurred near the Lab resulting in a Labwide evacuation. Recent OIG reports	
	focused on wildland fire prevention at other DOE labs.	
Subcontractor Safety Management	This is an assessment of subcontractor safety training and awareness to prevent and mitigate	500
	accidents. Subcontractor safety programs are set up with key subcontractors in coordination	
	with EH&S, Projects and Infrastructure Modernization, and Facilities divisions. Accidents	
	involving subcontractors have occurred in various projects. A stand down for the project(s) was	
	implemented to avoid further injuries and perform causal analysis. The stand down resulted in	
	costly delays in the project timeline. An upward trend in Lab construction projects and an	
	increase in subcontractors on site may lead to higher risk of subcontractor accidents.	

Exit Termination Process	This is an assessment of the Lab's exit termination process and an effectiveness review of	500
	guidance and procedures for terminating employees. The scope will include property,	
	equipment, and other assets from terminating employees that need to be returned to the Lab -	
	this process can be a challenge during the pandemic and while employees are working	
	remotely. Responsibility for chemicals and key information from terminating employees should	
	be properly transitioned.	
	LBNL sub-total	5,250

UC Berkeley - Audits	Scope Statement	Hours
Prior Year project wrap-up	N/A	320
Contract and Grant Compliance - Higher Risk Cost	Data analysis and sample testing of transferred project costs deemed at higher risk of non-	350
Transfers	compliance with sponsor requirements for allowable and allocable costs.	
Effort Reporting	Evaluate the adequacy and effectiveness of internal controls related to effort reporting as a	350
	method of certifying effort for contracts and grants.	
Payroll - Retroactive and Missed Pay	Evaluate the adequacy and effectiveness of internal controls related to the processing of	350
	retroactive and missed pay via UCPath.	
Timekeeping & Time Reporting (Kronos/CalTime)	Evaluate the adequacy and effectiveness of internal controls related to timekeeping and time	350
	reporting by employees, including IT general controls related to the campus Kronos	
	timekeeping system (CalTime) and data interfaces to UCPath.	
User Access and Role Management (PeopleSoft	Evaluate the adequacy and effectiveness of internal controls related to the request, approval,	350
Enterprise Systems)	provisioning, update, and de-provisioning of user access and roles in campus PeopleSoft	
	enterprise systems	
Work-Study Programs	Evaluate the adequacy and effectiveness of internal controls related to administration of work-	350
	study programs as a component of student financial aid.	
University Extension	Assessment of unit internal controls to assure that financial results are accurately reported,	350
	operations are effective and efficient, and activities are compliant with relevant policies,	
	procedures, and regulatory requirements.	
Undergraduate Admissions - Donations Review	Retrospective review of significant donations to the campus to identify admissions decisions	300
(Systemwide)	that could have been influenced by these donations.	
Technology Transfer (Systemwide)	Evaluate campus processes, data collection, analysis and reporting to identify opportunities to	300
	strengthen and streamline technology transfer processes and controls to support systemwide	
	business objectives.	
Police Complaint Process (Systemwide)	Systemwide audit addressing a recommendation the from Presidential Task Force on	200
	Universitywide Policing to verify complaints are being taken properly and to ensure all	
	employees are adhering to UC policies and procedures and individual departments' standards.	

UC Berkeley - Advisory		Hours
Indirect Cost Recovery	Advisory project to provide an independent comparative analysis of indirect cost recovery	500
	strategies at comparable institutions and trade-offs between different methodologies for	
	collection and allocation of indirect costs.	
	UC Berkeley sub-total	4,070

UC Davis - Audits	Scope Statement	Hours
Prior Year project wrap-up	N/A	400
Undergraduate Admissions - Donations Review	Retrospective review of significant donations to the campus to identify admissions decisions	250
(Systemwide)	that could have been influenced by these donations.	
Annual Report of Executive Compensation (AREC)	The AREC review is conducted on a rotating basis as requested by the Office of the President.	150
	The AREC report prepared by the campus will be reviewed for completeness and accuracy.	
Campus Recharge Rates	Recharge rates are a method of internal cost re-distribution between campus units and	300
	departments providing and receiving goods and services. This project will assess the review and	
	approval process to ensure recharge rates are reasonable and in compliance with university	
	recharge policies and procedures.	
Chancellor's Expenses (Business and Finance	The G-45 review is conducted on a rotating basis as requested by the Office of the President.	150
Bulletin (BFB) G-45)	We will review the annual fiscal and tax year reports of expenses incurred on behalf of the	
	Chancellor. Business and Finance Bulletin G-45, "Implementing Requirements on Expenses	
	Incurred in Support of Official Responsibilities of the President and Chancellors" requires these	
	annual reports.	
Information and Educational Technology (IET)	This project will assess whether IET's accounting structure is reflective of its operations, and will	300
Accounting Structure and Recharges	determine whether its recharge services are covered by rates charged.	
Research Data Inventory	This project will evaluate the university's controls over storage, classification, and disposition of	300
	research data.	
Contracting (Regent's Policy 5402)	This review will assess policies, procedures and internal controls in place to ensure compliance	300
	with Regents Policy 5402, Policy Generally Prohibiting Contracting for Services.	
Police Complaint Process (Systemwide)	Systemwide audit addressing a recommendation the from Presidential Task Force on	100
	Universitywide Policing to verify complaints are being taken properly and to ensure all	
	employees are adhering to UC policies and procedures and individual departments' standards.	
Technology Transfer (Systemwide)	Evaluate campus processes, data collection, analysis and reporting to identify opportunities to	350
	strengthen and streamline technology transfer processes and controls to support systemwide	
	business objectives.	
Clinical Internet of Things	This project will evaluate information security procedures, including but not limited to patch	300
	management and network and physical access control, for wired and wireless clinical devices.

Data Analytics Support	AMAS continues to refine its internal data analytics capabilities, as well as providing support to	250
	other UC Davis units in obtaining and analyzing data from UC Davis and systemwide (e.g., UC	
	Path) information systems.	
Diversity, Equity and Inclusion, Phase II	As part of the FY2020 Audit Plan, AMAS began a multi-year advisory service project with the	250
	Vice Chancellor for Diversity, Equity, and Inclusion (DEI). In Phase I, AMAS assessed the efforts	
	of schools/colleges in implementing the 2017 Diversity and Inclusion Strategic Vision. In Phase	
	II, AMAS will work with DEI to create and implement a process for tracking, reporting on, and	
	ensuring accountability for unit progress in addressing opportunities for improvement in	
	implementing the Diversity and Inclusion Strategic Vision.	
External Audit Coordination	AMAS is responsible for the external audit coordination function. AMAS guides departments	
	through audits performed by outside entities such as funding agencies, and gathers data to	
	facilitate and expedite these reviews.	
How to Survive an Audit	On a semi-annual basis, AMAS teaches a staff development course titled "How to Survive an	120
	Audit." This course is required as part of the Research Administration Certificate series, and	
	provides information to participants on working with external regulatory auditors and internal	
	auditors.	
IT Committees	AMAS participates in various IT-related committees, including the cyber-safety risk assessment	80
	committee, and the IT security committee.	
Advanced Computing Environment	Advisory engagement to evaluate information security controls and processes in the cloud	300
	Advanced Computing Environment.	
Compliance Office	Transition review of administrative practices in the Department of Health Compliance and	300
	Privacy Services.	
Health Informatics Virtual Environment	Advisory engagement to evaluate information security controls and processes of the Health	300
	Informatics Virtual Environment.	
Patient Contact Center	Engagement to measure completeness of implementation of the Patient Contact Center work	250
	plan, and to evaluate the impact of reorganized service lines on the departments.	
Payor Portals Access Management	This review will evaluate access controls for health insurance payors' web-based systems and	300
	services.	
Supply Chain	This review will assess processes and internal controls related to purchasing and receipt of	300
	goods within InforLawson. The scope of our review will be further refined through a	
	preliminary survey and risk assessment.	
UC Davis Health Committees	AMAS serves on a number of advisory committees charged with activities related to privacy and	80
	security; operations and facilities compliance; professional fee billing; and executive-level	
	issues.	
	UC Davis sub-total	10,160

UC Irvine - Audits	Scope Statement	Hours
IT Asset Inventory	This review will focus on the controls related to the inventory of assets on the network.	300
CARES Act Expenses	Provide assurance that activities/expenses are in compliance with the new Coronavirus Aid,	325
	Relief, and Economic Security Act (CARES Act).	
Program in Public Health	This review will focus on sponsored project administration of contracts and grants, in particular	300
	those related to COVID 19.	
Otolaryngology	Determine whether there are adequate internal controls over key administrative and financial	300
	processes, such as financial management, research administration, and compensation plan	
	activities.	
Remote Work Access	Risk of data loss due to staff logging in from laptops without VPN or using their personal devices	300
	to access campus resources. This is even more important due to more people working at home	
	as a result of COVID-19.	
Pathology & Lab Medicine	Determine whether there are adequate internal controls over key administrative and financial	300
	processes, such as financial management, research administration, and compensation plan	
	activities.	
Federal Funded Research Data Access Security	Assess security controls and related compliance with government grant contracts.	400
Controls		
UC Path Payroll Exceptions	Evaluate internal controls over post UC Path payroll processing as well as actions taken to	450
	identify and address post implementation pay exceptions.	
Ambulatory Growth Integration	Review controls and due diligence processes relating to establishing ambulatory clinics.	400
Police Complaint Process (Systemwide)	Systemwide audit addressing a recommendation the from Presidential Task Force on	100
	Universitywide Policing to verify complaints are being taken properly and to ensure all	
	employees are adhering to UC policies and procedures and individual departments' standards.	
Undergraduate Admissions - Donations Review	Retrospective review of significant donations to the campus to identify admissions decisions	300
(Systemwide)	that could have been influenced by these donations.	
Department of Medicine Residency Program	The review will focus on residency billing and related processes and controls.	450
Technology Transfer (Systemwide)	Evaluate campus processes, data collection, analysis and reporting to identify opportunities to	250
	strengthen and streamline technology transfer processes and controls to support systemwide	
	business objectives.	
Volunteer Management	The review will assess key administrative functions of volunteers, which may include training,	300
	background checks, and other elements of the program	
Physicians Billing Group	This review will focus on roles and responsibilities relating to third party billers as well as	425
	controls over lockboxes.	
Chancellor's Expenses - Systemwide	Review the UC Policy G-45, G-45 final reports, supporting documentation, report preparation	100
	methodology, and approval processes to ensure the accuracy of amounts reported, and	
	compliance with the G-45 policy and the UC Entertainment and Travel policies.	

Annual Reporting of Executive Compensation	Review executive employees' AREC documents packet, and the SMG coordinator's packet sent	100
(AREC) - Systemwide	by UCOP for directives regarding the certification process of the AREC report submission.	
Virtual Care - Telemedicine	Assess the controls and processes for virtual care including regulatory compliance, and reimbursement, and security and privacy.	400
New Hospital Construction - Phased	Review project invoiced costs and fees to ensure compliance with the contract agreement.	450
Conflict of Commitment (COC)OC Reporting -	Using data analytics and analysis, this review will focus on physician payments per the Sunshine	450
Sunshine Act/Open Payments Database	Act and reconciliation with School of Medicine faculty member reporting requirements to assess compliance with regulations and University policies and procedures on COC disclosures.	
UC Irvine - Advisory Services	Scope Statement	Hours
Fraud Risk Program	Education and training on fraud risk awareness.	150
Data Analytics	Utilizing data analytics and analysis identify unusual trends and investigate irregular transactions.	200
Coded Memo Reviews	Annual reviews of the Division of Finance and Administration (DFA) coded memos, which contain policies, procedures, and operational guidelines relating to most aspects of DFA.	200
External Audit Coordination	Internal Audit Services is responsible for the external audit coordination function. IAS guides departments through audits performed by outside entities and helps facilitate and expedite these reviews.	50
Continuous Auditing Corporate Card Transactions	Utilizing data analytics, test sample corporate card transactions to detect non-compliant transactions or fraud.	100
Physical Inventory Observations	Review a sample of department year-end physical inventory activities, including test counts and compliance with policies and procedures.	50
Campus and Medical Center Committees	Internal Audit Services serves on various advisory committees and provides input and advice on risks, accountability, and internal controls.	150
	UC Irvine sub-total	7,300

UC Los Angeles - Audits	Scope Statement	Hours
Prior Year project wrap-up	N/A	330
Real Estate	The purpose of the audit is to ensure that the related systems and procedures are conducive to accomplishing the Real Estate Department's business objectives.	300
Superintendent PreK-12 Programs & Schools - Geffen Academy at UCLA	The primary purpose of the review is to ensure that the Geffen Academy at UCLA organizational structure and controls are conducive to accomplishing their business objectives. The potential scope of the audit may include financial management, student fees, personnel and payroll, purchasing, and equipment inventory.	250

Central Ticket Office (CTO) - Cashiering	The purpose of the audit is to ensure that the Central Ticket Office organizational structure and controls, and the related systems and procedures surrounding cashiering activities are conducive to accomplishing its business objectives. The scope of the audit will focus on cash collections, deposits, reconciliations, physical security and information systems.	285
UCPD - Equipment Inventory and Evidence Management	The purpose of the audit is to ensure that UCPD's organizational structure and controls, and the related systems and procedures surrounding equipment inventory and evidence management are conducive to accomplishing the department's and University's business objectives. The scope of the audit may include equipment inventory management, evidence management and systems controls.	400
Housing and Hospitality (H&HS) - Vending Services	The purpose of the audit is to ensure that the Vending Services organizational structure and controls, and the related systems and procedures are conducive to accomplishing the organization's business objectives. The audit will assess the adequacy and effectiveness of internal controls over vending services.	200
Events & Transportation (E&T) - Information Systems	The purpose of the review is to ensure that the organizational structure and controls, and the related systems and procedures surrounding IT general controls within E&T are conducive to accomplishing the organization's business objectives. Where applicable, compliance with University and departmental policies and procedures will also be evaluated.	250
Facilities Mgmt Performance Reporting from Maximo and Cognos	The primary purpose of the review will be to ensure that the department's organizational structure and controls related to how performance reporting utilizing the Maximo and Cognos systems are conducive to accomplishing its business objectives. The scope of the audit will focus on the efficiency and effectiveness of internal controls and whether the department is optimizing these systems for generating metrics and performance reporting.	250
Facilities Mgmt Finance, Space, and Logistics Division – Purchasing Process Review	The primary purpose of the review will be to ensure that Materiel Management's organizational structure and controls related to the purchasing process are conducive to accomplishing its business objectives. The scope of the audit will focus on the purchasing process, receiving, returns, physical security, and accountability structure.	350
Facilities Mgmt Design & Project Mgmt. Division / Maintenance & Alterations Division – Preventive and Deferred Maintenance	The primary purpose of the review will be to ensure that Facilities Management's organizational structure and controls related to the administration of the Preventive Maintenance and Deferred Maintenance programs are conducive to accomplishing its business objectives. The scope of the audit will focus on the following: Preventive Maintenance: task identification, prioritization, work plans, performance and work force utilization, backlog, and work order completion; Deferred Maintenance: project identification, prioritization, scope, budgeting, and funding allocation and monitoring.	350

Capital Programs - Capitalization Procedures and Practices	The primary purpose of the audit will be to evaluate Capital Programs' processes and controls associated with project cost capitalization activities to ensure business practices comply with applicable University accounting principles and standards. The scope of the audit will focus on cost classification, cost coding and approval, and capitalization procedures.	350
Capital Programs - Project Management	The primary purpose of the review will be to ensure that the Capital Programs organizational structure and controls surrounding its project management processes are conducive to accomplishing its business objectives. The secondary purpose of the review will be to evaluate the adequacy and efficiency of internal controls. The scope of the audit will focus on change orders, financial management, and monitoring of project budgets and schedules.	350
Capital Programs - SharePoint System Review	The primary purpose of the audit will be to evaluate manual and automated controls, procedures, and security protocols. The scope of the audit will focus on user access administration, audit logs, backup and recovery, and business continuity and disaster recovery.	300
Associated Students(AS)UCLA - UCLA Restaurants – Cooperage Division	The purpose of the review will be to ensure that the related systems and procedures surrounding the Cooperage Division are conducive to accomplishing ASUCLA's business objectives. The secondary purpose of the review will be to evaluate the adequacy and efficiency of internal controls. The scope of the review will focus on cash handling, physical security, food safety, employee training, and reconciliation and monitoring. Specific restaurant locations are to be determined.	250
ASUCLA - Student Media	The primary purpose of the review will be to ensure that the related systems and procedures surrounding Student Media's operations are conducive to accomplishing ASUCLA's and the University's business objectives. The secondary purpose of the review will be to evaluate the adequacy and efficiency of internal controls. The scope of the review will focus on operational procedures, cash management, Payment Card Industry (PCI) compliance, accounts receivable, personnel and payroll, systems access, and physical security.	200
ASUCLA - Finance Division – Human Resources Payroll	The primary purpose of the review will be to ensure that the related systems and procedures surrounding the Division are conducive to accomplishing ASUCLA and the University's business objectives. The secondary purpose of the review will be to evaluate the adequacy and efficiency of internal controls. The scope of the review will focus on compensation, new hires, terminations, payroll, compliance, and systems access.	300
ASUCLA - Information Services Division – Ratex Point of Sale (POS) System	The primary purpose of the review will be to determine the adequacy and effectiveness of internal controls over the Ratex POS system operations. The scope of the audit will focus on physical controls, user access administration, disaster recovery and business continuity planning, general/application controls, and back-up and recovery.	250

Athletics - Compliance	The primary purpose of the audit is to ensure that Athletics Compliance Division organizational	500
	structure and controls are conducive to accomplishing their business objectives. The potential	
	scope of the audit may include monitoring & evaluation, eligibility, investigation & self	
	reporting, recruiting, and information systems.	
Technology Development Group (TDG) - Incentive	The purpose of the audit is to verify the accuracy of the fiscal year 2020-21 award calculations	300
Plan Compensation	and the reported incentive plan objective levels achieved (threshold, target, maximum). In	
	addition, 2021-22 incentive plan objectives will be reviewed to determine if they are specific,	
	measurable and align with TDG's mission.	
Continuing Education of the Bar (CEB)	The purpose of the audit is to review CEB's key balance sheet accounts and provide CEB's	400
	Advisory Board with reasonable assurance as to the overall integrity of the financial statements	
	for the fiscal year ending June 30, 2021. CEB's adherence to University policies and Generally	
	Accepted Accounting Principles (US GAAP) will be addressed.	
UCLA Foundation	The purpose of the audit is to perform an annual compliance review for fiscal year 2020-2021	650
	to ensure that dispositions of restricted funds transferred from the UCLA Foundation to the	
	University for that period complied with the purposes and restrictions set forth by the donors.	
	The scope of the review will include a general assessment of the Foundation's active endowed	
	and current expenditure funds for fiscal year 2020-2021.	
Student Affairs - Student Organizations, Leadership	The purpose of the audit is to ensure there are adequate internal controls over administrative	900
& Engagement (SLOE)	and financial activities. The potential scope of the audit may include financial management,	
	cash handling, equipment inventory, purchasing, and information technology and security.	
Campus Department TBD	The purpose of the audit is to ensure there are adequate internal controls over administrative	900
	and financial activities. The potential scope of the audit may include financial management,	
	cash handling, equipment inventory, purchasing, and information technology and security.	
Annual Review of the Chancellor and Associate of	The primary purpose of the review will be to verify that the process for compiling data used to	300
the Chancellor's Expenses (BFB G-45) - Systemwide	complete the "Annual Report of Fiscal Year Expenses of the Chancellor" and the "Annual Report	
	of Taxable Expenses of the Chancellor" as required by BUS G-45.	
Undergraduate Admissions - Donations Review	Retrospective review of significant donations to the campus to identify admissions decisions	300
(Systemwide)	that could have been influenced by these donations.	
AREC - Annual Report on Executive Compensation	The purpose of the review is to ensure that the 2020 AREC is complete and accurate before	300
(Systemwide)	being certified and submitted by local officials to the University of California Office of the	
	President (UCOP). Additionally, we will determine that the data included in the report is in	
	accordance with the guidelines set forth by UCOP.	
Technology Transfer (Systemwide)	Evaluate campus processes, data collection, analysis and reporting to identify opportunities to	300
	strengthen and streamline technology transfer processes and controls to support systemwide	
	business objectives.	

Police Complaint Process (Systemwide)	Systemwide audit addressing a recommendation the from Presidential Task Force on	100
	Universitywide Policing to verify complaints are being taken properly and to ensure all	
	employees are adhering to UC policies and procedures and individual departments' standards.	
Disaster Recovery -Tier 1 Applications	The audit will evaluate the sufficiency of processes to assure recovery after a disaster and	500
	continued business processing in the event of system failures or attacks.	
Charge Capture - Radiation Oncology	Charge capture projects will assess the adequacy and effectiveness of controls over key processes.	500
Charge Capture - Perioperative Services - Santa	Charge capture projects will assess the adequacy and effectiveness of controls over key	500
Monica	processes.	
Clinical Research Payments to the Health System	This project will assess whether the Health System is being fully reimbursed for the clinical services it provides to clinical research studies.	500
Care Coordination - Payments to External Providers		500
,	payments to external providers of post-acute care for patients with inadequate financial	
	resources are valid.	
Procurement Process for High Cost Implants-Value	This project will assess the procurement process for high cost implants used in patient	500
Analysis Committee	procedures.	
Revenue Capture and Billing - High Cost Drugs	The purpose of the audit is to determine the adequacy and effectiveness of internal controls	500
	relating to the charge capture and billing of high cost drugs.	
Interventional Radiology/Hospital Procedure Units	The purpose of the audit is to determine the adequacy and effectiveness of internal controls	500
	relating to hospital and professional fee charge capture. In addition, an assessment of internal	
	controls over IR supplies with a focus on high cost supplies will be performed.	
Tiverton House	The audit will assess the adequacy and effectiveness of internal controls over key financial and	500
	administrative activities.	
Patient Valuables - Santa Monica Medical Center	This audit will evaluate whether processes are in place to ensure that patient valuables are	240
	sufficiently safeguarded, properly released, and accountability adequately maintained.	
Ambulatory Surgery Center - Thousand Oaks	Audit will assess the adequacy and effectiveness of internal controls over key activities,	500
	including payment handling, revenue capture, and healthcare vendor relationships.	
Radiology - South Bay - Palos Verdes	Audit will assess the adequacy and effectiveness of internal controls over key activities,	500
	including payment handling, revenue capture, and healthcare vendor relationships.	
Primary Care - Burbank	Audit will assess the adequacy and effectiveness of internal controls over key activities,	500
	including payment handling, revenue capture, and healthcare vendor relationships.	
Physical Therapy - Community Practice	Audit will assess the adequacy and effectiveness of internal controls over key activities,	500
	including payment handling, revenue capture, and healthcare vendor relationships.	
Head & Neck Practice - BofA Building	Audit will assess the adequacy and effectiveness of internal controls over key activities,	500
	including payment handling, revenue capture, and healthcare vendor relationships.	

This project will assess the financial management of agreements for services provided between	600
DGSOM departments.	
Academic departmental audit to determine whether there are adequate internal controls over	900
key administrative and financial processes, such as financial management, research	
administration, and compensation plan activities.	
This project will determine whether adequate controls are in place regarding controlled	500
substances used in School of Medicine research laboratories.	
The project will assess the adequacy and effectiveness of internal controls over payroll time and	200
leave reporting processes.	
This project will review of the School of Dentistry's administration of gifts, including gift	250
processing and monitoring expenditures for compliance with gift terms.	
Academic departmental audit to determine whether there are adequate internal controls over	500
key administrative and financial processes, such as financial management, research	
administration, and compensation plan activities.	
Scope Statement	Hours
The primary purpose of the review will be to ensure that the department's internal controls	300
related to implementation processes and procedures of the Bruin Budget Model are conducive	
to accomplishing its business objectives. The scope of the audit will focus on the adequacy of	
internal controls and whether the model is performing as intended.	
UCLA Audit & Advisory Services will be part of the One Bill workgroup. The One Bill project	200
aims for UCLA to have one 'true' one bill for all three UCLA accounts receivable areas, merging	
Housing transactions into the Tuition billing system, and possibly Transportation student	
accounts receivable.	
The purpose of the Cybersecurity advisory project is to assist Information Technology Services	300
in assessing the current IT assets across UCLA, identifying crucial weaknesses in the	
cybersecurity architecture.	
The North and South Human Resource and Payroll Centers have merged under one Director.	350
We will be performing an advisory project to assist the two units with the merger and ensure	
that new processes being implemented are efficient and effective and in compliance with

UC Merced - Audits	Scope Statement	Hours
Prior Year project wrap-up	N/A	50
Title IV	Review for compliance with Higher Education Act consumer disclosures and reporting	300
	requirements. Follow up on DOE audit findings. Increased risks due to monitoring results and	
	external audit findings.	
Recharges and Recharge Process	Review tor controls effectiveness and accuracy of pooling and charging costs - Increased risks	300
	due to new system, changes in research leadership, and reorganization.	
Oracle Implementation	Review new campus processes with new ERP system. Review general IT controls to evaluate	350
	security of the new ERP system.	
Clery Compliance	Review compliance with the Clery Act. Increased risks due to other UC Campus's external audit	300
	findings.	
Executive Compensation (AREC)	N/A	200
Undergraduate Admissions - Donations Review	Retrospective review of significant donations to the campus to identify admissions decisions	100
(Systemwide)	that could have been influenced by these donations.	
Technology Transfer (Systemwide)	Evaluate campus processes, data collection, analysis and reporting to identify opportunities to	250
	strengthen and streamline technology transfer processes and controls to support systemwide	
	business objectives.	
UC Merced - Advisory Services	Scope Statement	Hours
Police Complaint Process (Systemwide)	Systemwide audit addressing a recommendation the from Presidential Task Force on	50
	Universitywide Policing to verify complaints are being taken properly and to ensure all	
	employees are adhering to UC policies and procedures and individual departments' standards.	
Year 2/3 Review of Gift Stewardship	Review processes for administration, communication and monitoring for gift funds, and	25
	effectiveness of oversight.	
Year 2 Teacher Preparation Program (TPP)	Review processes for administering Teacher Preparation Program and compliance with CA state	55
	laws.	
HEERF Funding	Review of how HEERF funding is spent and reported according to the Education Department	50
	guidelines.	
Ethics and Compliance Program Support	Provide miscellaneous support to the ethics and compliance program.	100
Monthly Data Analytics	Perform monthly data analysis of campus data.	60

Concurrent Auditing - Contracts and Grants	Review high risk areas on an ongoing basis for appropriate controls, compliance, fraud and	100
Transactions and Controls	errors. Will focus on contracts and grants transactions.	
	UC Merced sub-total	2,290

UC Office of the President - Audits	Scope Statement	Hours
Prior Year project wrap-up	N/A	600
Electric Service Provider (ESP) Power Supply Verification	Annual audit of power content reporting to the California Energy Commission (CEC).	150
Office of the Treasurer Annual Incentive Plan (AIP)	Phased assessment which will include review of incentive goals and award calculations.	300
Medical Centers Clinical Enterprise Management Recognition Plan (CEMRP)	Phased assessment which will include review of incentive goals and award calculations.	300
Undergraduate Admissions - Donations Review (Systemwide)	Retrospective review of significant donations to the campus to identify admissions decisions that could have been influenced by these donations.	250
Campus Undergraduate Admissions Processes	Evaluation of campus undergraduate admissions processes focused on high risk areas related to the risk of inappropriate influence on admissions decisions.	TBD
Police Complaint Process (Systemwide)	Systemwide audit addressing a recommendation the from Presidential Task Force on Universitywide Policing to verify complaints are being taken properly and to ensure all employees are adhering to UC policies and procedures and individual departments' standards.	300
LBNL Audit Support - Home Office Costs	Assistance to LBNL for its audit of FY21 UC National Laboratories (UCNL) Home Office Costs.	150
Cyber Resiliency Audit - UC Health Focus	Review UC Health locations' preparedness to respond to, and recover form, a significant cyberattack. The audit will include reviewing the locations incident response, disaster recovery and continuity plans and procedures and assess their overall preparedness to respond and recover from a major cyber-attack.	2,000
Technology Transfer (Systemwide)	Evaluate campus processes, data collection, analysis and reporting to identify opportunities to strengthen and streamline technology transfer processes and controls to support systemwide business objectives.	300
Pension Administration System	Review of system-based and non-system-based internal controls over the recently implemented pension administration system.	300
UCPath Center	A broad-based assessment of internal controls over financial operations at the UCPath Center and operating effectiveness of UCPath Center Services.	400
UCPath Talent Acquisition Manager (TAM) Module	Evaluate the implementation of the TAM module at UCOP and in-scope campuses.	250
Vulnerability Assessment and Penetration Testing	Conduct detailed scanning for vulnerabilities and manual penetration testing to identify opportunities for improvements in security controls. Review the vulnerability management process overall to identify opportunities for improvement to better manage cyber-risks.	2,200

IS-3 Electronic Information Security Policy Implementation (systemwide)	Review the implementation of the updated IS-3 policy and assess compliance with policy requirements.	150
Threat Detection and Identification (TDI) Audit Follow-up	Evaluate the implementation of recommendations from the prior year TDI audit across UC locations and at the Office of the President.	1,000
UC Office of the President - Advisory Services	Scope Statement	Hours
ANR Business Processes	Review the ANR business processes interfacing with UCPath at ANR post-go-live to assess efficiency and effectiveness of controls.	250
Remote Workforce Risk Assessment	Risk assessment to identify and analyze risks associated with a partial remote workforce.	200
Cross-Campus Enrollment System	Review and evaluate operational risks associated with the cross-campus enrollment system and identify opportunities to improve throughput and the fulfillment of business objectives.	300
	UCOP sub-total	9,400

UC Riverside - Audits	Scope Statement	Hours
Prior Year project wrap-up	N/A	300
Campus Laboratory Safety	Audit & Advisory Services (A&AS) will test for campus compliance with applicable regulatory requirements, and University policies and controls. In addition, A&AS will assess the campus culture with regards to Health and Safety and the general control environment.	400
Conflict of Interest/Conflict of Commitment	Assess the processes and controls surrounding outside activities reporting to ensure adherence with University polices.	400
College of Humanities, Arts, & Social Sciences (CHASS)	The review will evaluate effectiveness, efficiency, compliance, and/or the adequacy of internal controls in selected risk areas	400
Contracts and Grants	Review internal controls over contracts and grants sponsored research and evaluate compliance with various regulations and applicable UC policies and procedures.	400
Undergraduate Admissions - Donations Review (Systemwide)	Retrospective review of significant donations to the campus to identify admissions decisions that could have been influenced by these donations.	300
Technology Transfer (Systemwide)	Evaluate campus processes, data collection, analysis and reporting to identify opportunities to strengthen and streamline technology transfer processes and controls to support systemwide business objectives.	400
Facilities	General overall audit to determine the adequacy of internal controls in selected risk areas and evaluate compliance with applicable University policies and procedures.	400
Police Complaint Process (Systemwide)	Systemwide audit addressing a recommendation the from Presidential Task Force on Universitywide Policing to verify complaints are being taken properly and to ensure all employees are adhering to UC policies and procedures and individual departments' standards.	100

UC San Diego - Audits	Scope Statement	Hours
Construction	The objective of this review will be to assess the effectiveness of construction management	400
	policies and procedures, and internal controls related to the administration of construction	
	activities. The review may encompass topics such as pre-award project bidding, budgeting	
	(including hard and soft costs), project management, change order administration, timeliness of	
	project completion, and compliance. The review may also evaluate factors which can result in	
	higher construction costs for UC as compared to private industry. Audit and Management	
	Advisory Services (AMAS) may engage a co-source partner to complete this review.	
Financial Information System Implementation	The purpose of this review will be to conduct a post-implementation review of the	400
	FIS implementation, including implementation and deployment strategies and timing, to	
	identify successes, challenges, and lessons learned from the implementation to help the	
	organization for future initiatives.	
Concur (Procurement Card, Employee	The objective of this review will be to evaluate whether internal controls and business	350
Reimbursements)	processes for Concur provide reasonable assurance that operations are effective, and in	
	compliance with University policy and procedures. The scope of our review will include internal	
	control processes for Procurement Card and employee reimbursements. Preliminary survey	
	may include assessment of roles and access provisioning; business processes, workflow and	
	system controls; corresponding electronic interfaces with UCSD systems; data storage,	
	retention and backup (local and vendor). Additional consideration may be given to IT general	
	and application controls. Based on results of the preliminary survey, detailed testing may be	
	performed to validate internal controls, and/or to review transactions and data on a sample	
	basis.	

Sponsored Research Award Financial Closeout	The purpose of this review will be to determine whether internal controls provide reasonable assurance that processes for closeout of Sponsored Research Funds result and timely reporting to the agency, which is appropriately supported by documentation. Based on preliminary survey, detail testing may be conducted on a sample of awards closed during the fiscal year after Oracle Financial Cloud (OFC) implementation.	350
Kuali Research and Conflict of Interest	This review will evaluate the Kuali Research and Kuali Conflict of Interest (COI) implementation to assess whether internal controls provide reasonable assurance that processes related to sponsored projects' life cycle and COI disclosures are working as intended. Consideration will also be given to IT general and application controls. A risk-based preliminary survey will be conducted as a basis for selecting areas of focused audit testing, which may include business process workflow design, sponsored research award closeout (programmatic reporting), COI disclosures, system integration, data elements, reporting, and system access.	350
Vice Chancellor Research Executive Accounts	The objective of our review will be to perform a transition review, and evaluate whether internal controls and business processes for oversight for VC Research executive accounts provide reasonable assurance that operations are effective, efficient, and in compliance with University policy and procedures. The scope of our review may include internal controls for selected core business operations (such as payroll and timekeeping, travel and entertainment, procurement, etc.), delegations of authority, and detailed testing of expenses charged to executive accounts.	250
School of Global Policy & Strategy (GPS)	The purpose of this review will be to perform an overall assessment of the GPS administrative internal control environment, and determine whether internal controls provide reasonable assurance that operations are effective, in compliance with University policy, and result inaccurate financial reporting. Subject to results of the risk-based preliminary survey, the detailed scope of the review may include overall financial condition and deficits, payroll and benefits, transaction processing, contract and grant activities, service agreements and business contracts, equipment management, department-based business transactions, among other areas.	400
Institute for Geophysics and Planetary Physics (IGPP)	The purpose of this audit project is to perform an overall assessment of the IGPP administrative internal control environment, and determine whether internal controls provide reasonable assurance that operations are effective, in compliance with University policy, and result in inaccurate financial reporting. A risk-based preliminary survey will be conducted as a basis for selecting areas of focused audit testing, which may include overall financial condition and deficits, payroll and benefits, transaction processing, contract and grant activities, service agreements and business contracts, equipment management, department-based business transactions, and IT general and application controls.	400
Undergraduate Admissions - Donations Review (Systemwide)	Retrospective review of significant donations to the campus to identify admissions decisions that could have been influenced by these donations.	300

Technology Transfer (Systemwide)	Evaluate campus processes, data collection, analysis and reporting to identify opportunities to strengthen and streamline technology transfer processes and controls to support systemwide business objectives.	250
Police Complaint Process (Systemwide)	Systemwide audit addressing a recommendation the from Presidential Task Force on Universitywide Policing to verify complaints are being taken properly and to ensure all employees are adhering to UC policies and procedures and individual departments' standards.	100
Telehealth Services	The purpose of this review will be to evaluate whether internal controls for UCSDH telehealth services provide reasonable assurance that operations are effective, financial results are accurate, and activities are compliant with relevant policies and procedures. Focus may include topics such as associated revenue cycle processes, and supporting technology.	400
COVID-19 Testing Agreements	The purpose of this project is to evaluate whether internal controls and business processes related to external COVID-19 Testing Agreements provide reasonable assurance that expenses are captured accurately and completely, and facilitate reimbursement of incurred expenses from external organizations.	350
Health System Vendor Contracting (Medical Services & Supplies)	The purpose of this review will be to evaluate whether internal controls and processes for vendor contracting provide reasonable assurance that agreements for vendor-provided healthcare supplies and services are appropriately approved, compliance requirements are addressed, potential conflicts are fully disclosed and managed, and oversight mechanisms are effective for these types of contracts.	400
Sterile Processing Department	The purpose of this review will be to perform an overall assessment of the Sterile Processing Department business operations to determine whether internal controls provide reasonable assurance that operations are effective and efficient, financial results are accurately reported, and activities are compliant with relevant policies, procedures, and regulatory requirements. Based on results of the preliminary survey, detailed testing may be performed in the areas of facility management, records management, infection control procedures, personnel management, supply inventory, expenditure controls, and equipment management.	400
Student Health	The purpose of this audit is to perform an overall assessment of Student Health Services to determine whether internal controls provide reasonable assurance that operations are effective, financial results are accurately reported, and activities are compliant with relevant policies, procedures, and regulatory requirements. Based on results of the preliminary survey, detailed testing may be performed in the areas of records management, personnel management and credentialing, scheduling, medical and pharmaceutical supplies and inventory, expenditure controls, equipment inventory, and management of patient records.	400

Data Analytics	AMAS will reserve hours for a data analytic project as a first step to revamp and expand our data analytic capabilities as part of the overall risk assessment process. Various analytics will be	
1	defined and implemented to review trends and unusual transactions that might identify risk	
	areas. We will also identify possible opportunities to collaborate with units such as Business &	
	Financial Services and seek to use this project as a launching pad to provide internship	
	opportunities for students.	
Health System COVID-19 Recovery – Federal	The purpose of this project is to evaluate, from an advisory perspective, processes for Health	200
Emergency Management Agency (FEMA)	System efforts toward filing and collecting on claims for recovery of expenses and lost revenue	
Reimbursement	with FEMA and/or other funding sources related to the COVID-19 major disaster declaration.	
	This may include processes for compilation of eligible expenses, submission to FEMA, and	
	evaluation of supporting documents to ensure the expenses claimed are appropriately	
	supported.	
Health Data Oversight Committee	The purpose of this project is to evaluate, from an advisory perspective, processes for the	200
	handling of requests to share health data from UCSDH with third parties to ensure responsible	
	third-party data sharing consistent with UCSDH policies.	
Health Sciences Faculty Equity Advisor Process	The purpose of this review will be to evaluate, from an advisory perspective, Health Sciences	250
, , ,	faculty recruitments and the role of the Faculty Equity Advisors, to consider whether the	
	expanded use of Faculty Equity Advisors has improved processes for promoting diversity and	
	equity in recruitments.	
Campus COVID-19 FEMA Claim Support (Continued	The purpose of this review is to continue efforts to provide input and support for campus	250
from FY20 & FY21)	financial recovery through claims with FEMA for recovery of expenses related to the COVID-19	
·	major disaster declaration.	
Oracle Governance, Risk, Control Module	The purpose of this review will be to evaluate, from an advisory perspective, the planning	250
(Continued from FY21)	efforts of the campus GRC implementation to manage operational risks for the new FIS and to	
	ensure that adequate consideration is given to the design and implementation of internal	
	controls, such as Access Controls, Financial Controls and Financial Reporting Compliance.	
Student Information System (Continued from FY21)	The purpose of this review will be to evaluate, from an advisory perspective, the planning	250
	efforts of the campus SIS implementation to ensure that adequate consideration is given to	
	risks inherent to an ERP implementation. Areas of participation may include requirements	
	gathering and procurement; compliance considerations, change management, business process	
	review, review decision making process, design and implementation of internal controls.	
	Further objectives will be defined upon project kick-off.	
Foreign Engagement Monitoring (Continued from	The purpose of this review is to provide advisory services support and partner with RCI to	250
FY21)	conduct monitoring reviews of foreign engagements for sampled researchers. AMAS intends to	
	collaborate on approach, standard operating procedures, sampling methods as needed.

UC San Francisco - Audits	Scope Statement	Hours
Research Data Security	Evaluate the processes and control for protecting and sharing of research data to ensure	300
	compliance with University policies and adequate risk mitigation.	
Cost Sharing for Sponsored Awards	Assess the controls and processes for the budget commitment and recording of actual cost	350
	sharing for sponsored awards and review the monitoring processes for ensuring cost sharing	
	commitment compliance.	
Technology Transfer (Systemwide)	Evaluate campus processes, data collection, analysis and reporting to identify opportunities to	300
	strengthen and streamline technology transfer processes and controls to support systemwide	
	business objectives.	
Departmental Review	Review administrative and financial practices in selected departments to assess their	350
	compliance with University policies and regulatory requirements.	
Biospecimen & Tissue Core Facility - Inventory	Follow-up validation of remediated actions to address deficiencies in inventory controls for	250
Management	biospecimens.	
Fresno Educational Program Agreements	Review the processes and controls for contracting and monitoring of compliance of educational	300
	program agreements.	
Medicare Advantage Denials	Review controls to ensure consistency between payor contracts and billing.	300
Health Affiliation Agreements	Validate appropriate processes are in place to comply with select terms of the affiliation	250
	agreements.	
Title IX in Clinical Setting	Assess implementation of guidance and directives' core elements and progress toward full	350
	implementation.	
Clinics Review	Evaluate key operational processes at select clinics to validate that effective controls are in	400
	place.	
Pharmacy Operations	Review the processes and controls for selected areas of pharmacy operations.	300
CARES Act - Provider Relief Fund Compliance	Validate readiness for potential external audits of funds received.	300
Clinical Applications	Evaluate controls in place for support, maintenance, and security for select applications or	300
	operating systems.	
Health Affiliate IT Security Assessment	Validate remediation plans and actions based on external security audits that have been	350
	completed.	
Construction Project	Review construction project invoiced costs and fees to ensure compliance with contract	300
	agreement and assess the adequacy of internal controls and processes for management of	
	costs.	
Business Continuity Planning	Validate that business continuity planning is being performed and that plans are accessible and	300
	reviewed regularly.	
UCSF Safety Taskforce/Police Complaint Process	Systemwide audit addressing recommendations the from Presidential Task Force on University-	200
	wide Policing to ensure complaints are being taken properly and overall adherence to policies	
	and procedures. We will also validate the implementation of the Taskforce recommendations	
	to improve campus security.	

Outsourced IT Operations	Assess the processes and controls implemented by HCL as part of its contract with UCSF and to	350
	determine compliance with contract agreements and IT security requirements.	
Clinical Research	Continue to assess controls and processes to ensure appropriate billing for clinical research	200
	activities.	
Internet-facing Vulnerability Management	Review vulnerability management practices specific to internet facing devices across UCSF.	340
Time Keeping	Evaluate the controls and processes for the recording, review and approval of time worked.	400
UC San Francisco - Advisory Services	Scope Statement	Hours
Financial and Compliance Dashboard	Continue with optimization of the financial and compliance dashboard.	300
Cost Transfers	Data analysis of late cost transfers for sponsored projects to identify areas for opportunities to	250
	improve controls and processes.	
Affiliation Agreements	Review the processes and controls in place to ensure compliance with select terms of the	300
	affiliation agreements.	
Langley Porter Psychiatric Hospital and Clinics	Validate that controls are in place to mitigate risks associated with moving to the Funds Flow	250
(LPPH&C) Funds Flow	Model for LPPH&C.	
Remote Working related controls	Evaluate the effect of remote working on controls in selected areas.	400
Fraud Risk Assessment	Develop a fraud risk assessment and analysis to identify high risk areas for fraud and assist	500
	departments to design and implement control activities to prevent and detect fraud.	
Fraud Awareness Training	Provide fraud awareness and prevention training and education at UCSF to raise awareness of	200
	fraud risks.	
Misc. Committees and Workgroups	UCSF participates in various committees, including IT and Investigation workgroups.	1,210
Data Analytics Program	Perform enterprise-wide data analytics to identify areas for continuous improvement and	400
-	monitoring of controls.
