

Preview of the FY21-22 UC Health Report on Covered Affiliations

As of May 31, 2022

In July 2021, the Board of Regents approved *Regents Policy 4405: Policy on Affiliations with Healthcare Organizations that Have Adopted Policy-Based Restriction on Care* that governs affiliations between health care organizations that have policy-based restrictions on care and the University, including University of California Health's (UCH) academic health centers (AHCs) and health professional schools. The Regents Policy and an accompanying systemwide policy providing implementation direction, the [*Interim Policy: Affiliations with Certain Healthcare Organizations*](#), released in September 2021, together are intended to protect the ability of UC clinicians and trainees working at those organizations ("covered affiliates") to provide evidence-based, medically-necessary care to all patients.

To promote complete and consistent adoption of the policies at each location, UC Health convened a working group comprised of representatives from each UC Health location. This report provides a status on the development and implementation of consistent practices, draft reporting, model communications, and establishment of governance as required by the policies.

Implementation Status as of May 31, 2022

The following outlines the status of implementation efforts. An overview of all requirements and implementation status as of May 31, 2022, is also available in [Appendix A](#).

- 1. Moratorium on New Non-Compliant Agreements** – Effective July 1, 2021, the University implemented a moratorium on all new agreements with covered affiliates that were not in compliance with the Regents Policy.
- 2. Systemwide Policy Review:** The *Interim Policy: Affiliations with Certain Healthcare Organizations* was released in September 2021 providing implementation direction for *Regents Policy 4405*. The interim policy is currently out for comment through June 24, 2022 consistent with the systemwide process for policy development.
- 3. Affiliation Agreements** – The interim systemwide policy includes a due diligence checklist that must be completed before entering into an agreement with a covered affiliate and requires new approval processes to ensure all new and renewed contracts align with the Regents policy. All UC Health locations have implemented these requirements.
- 4. Contract Amendments** – All agreements with covered affiliates must comply with the Regents and interim systemwide policies or be terminated by December 31, 2023. The interim policy includes new non-discrimination contracting language, and UC Legal continues to negotiate with covered affiliates to amend existing contracts and ensure compliance with the policies. As of May 31, 2022, significant progress has been made to update agreements with the Dignity/CommonSpirit Health, Adventist Health, and Providence Health systems. Efforts continue with other covered affiliates and any arrangements that are not brought into compliance by December 31, 2023 will be terminated.

The status of systemwide contract amendments are as follows:

Private/Non-Profit Entities with Policy-Based Restrictions on Care

#	Covered Affiliate	Status
1	CommonSpirit Health (formerly Dignity Health)	Omnibus addendum effective February 1, 2022
2	Adventist Health	Omnibus addendum effective December 10, 2021
3	Providence	Master template language approved March 2022 – individual contracts being amended
4	Loma Linda University Health	Currently handled on an individual basis. A single systemwide arrangement is being pursued.
5	Scripps Mercy hospitals	Negotiations in progress
6	Other location-specific affiliates	Negotiations in progress

Government Entities with Policy-Based Restrictions on Care

#	Covered Affiliate	Status
7	U.S. Department of Veterans Affairs	Currently handled on an individual basis. A single systemwide arrangement is being pursued.
8	Indian Health Service	Currently handled on an individual basis. A single systemwide arrangement is being pursued.

5. **Communications** – Model language and guidance have been developed for use by the AHCs and health professional schools in communicating with their patients, faculty, staff, and trainees as required by the policies. These materials are intended to raise awareness of the policy-based restrictions on care at partner organizations and patients’ options for care. Materials developed for faculty, staff and trainees expressly convey the University’s expectation that they make clinical decisions consistent with the standard of care and their independent professional judgment, as well as the voluntary nature of practice or training assignments.

The model communications were shared with cross-functional working groups of communicators, training managers, clinical coordinators, and patient experience managers to review and identify how communications will be shared locally. As of May 31st, all locations have received the model language and have begun the process of communicating to their audiences through various channels. Each site has reported that they expect to complete the implementation of required communications by June 30, 2022.

Through these efforts, health professional school administrators and faculty members have identified a need to understand trainee objections to placement at a covered affiliate site at the outset of their programs. They identified it is challenging to guarantee that alternate sites with the faculty, resources, and clinical/educational experiences needed to assure compliance with ACGME, specialty Board, and institutional requirements will be timely while maintaining an equitable experience for all trainees in a given program.

6. **Complaint Resolution** – Each UC Health location identified complaint resolution contacts listed in [Appendix B](#) and developed processes for receiving, evaluating, and resolving complaints or grievances from patients, trainees, and personnel related to care received or provided at covered affiliates as follows:
 - a. Reviewed channels and processes for receiving complaints or grievances from UCH patients, trainees, faculty, and staff related to care received or provided at covered affiliate facilities, identified contacts responsible for evaluating and reporting on complaints, and identified a point of contact at UC Health locations to whom UC personnel and trainees can reach out to for assistance if they believe their contractual rights are being impeded.
 - b. If received, concerns raised about impediments to accessing reproductive health care, gender affirming services, or end-of-life care will be escalated promptly to the Chief Executive Officer or designee.

7. **Reporting** – The policies require an annual report on covered affiliations be delivered to the Regents. The following is a preview of the first annual report, which will include data on covered affiliations from July 1, 2021 through June 30, 2022 and will be presented to the Health Services Committee in August 2022.

In preparation, the working group has identified reporting requirements, the locations have implemented processes to capture required data, Report templates have been drafted, and tests of the reporting process completed at each UCH location.

The report will include the following elements:

#	Description of Report
1	<p>New/Extended Affiliation Agreement Report: The working group completed a test report on new, extended, expired or terminated affiliation agreements through March 31, 2022, to practice/prepare/refine requirements for the first annual report to the Regents. Each location confirmed that it is monitoring and tracking covered affiliations.</p> <p>See Appendix C for a draft of the annual report through March 31, 2022. We anticipate that the August 2022 report will also reflect termination of the agreement between UCSD Health and Father Joe’s Villages.</p>
2	<p>Complaints Report: Each UC health location identified complaint reporting contacts and processes to receive and evaluate complaints or grievances. A draft reporting template was developed and utilized as part of a test of reporting.</p> <p>As of March 31, 2022, no complaints from patients, faculty, and students regarding their ability to provide or receive care under a covered agreement have been received.</p>
3	<p>Quality Indicators Report: UC Health locations are updating a previously developed framework to monitor the quality of care provided at covered affiliates and report on standardized quality indicators.</p>

	In this first year, the annual report will include definitions of proposed quality indicators and in subsequent years, the results of these quality metrics will be reported.
4	<p>Non-Compliant Agreements: All UC health locations have implemented new due diligence procedures and begun using compliant contract language, and they have been negotiating amendments to existing agreements as they have come up for renewal.</p> <p>As of May 31, 2022, the agreement between UCSD Health and Father Joe’s Villages was terminated as they could not reach a policy-compliant terms. The President of the University and Chair of the Health Services Committee are notified of any anticipated changes in existing relationships as a result of the implementation of the policies.</p>

8. Patient Transfer Process

A working group on patient transfers is developing procedures to support the transfer of UC patients who require access to a restricted service from a covered affiliate’s facility to a UCH or other location where the service can be provided. UCH locations are amending new and existing agreements with covered affiliates to outline expectations regarding these transfers. They are also developing communications for UC personnel and trainees to be informed of the transfer process, and to inform patients about restrictions on care and alternative options at UCH or other facilities. These development efforts are expected to be completed by June 30, 2022 and an update will be provided in the August 2022 report.

9. Quality Metrics

A framework to monitor the quality of care provided at affiliate sites is being updated to facilitate reporting on measures consistent with the Regents and systemwide policies. In this first year of implementation, UC Health will define proposed quality standards for hospitals that align with the quality domains of the Institute of Medicine¹. The framework will be finalized by June 30, 2022 and reviewed with the Health Services Committee in the August 2022 report. The locations will implement the framework and begin reporting on performance as part of the annual report to the Regents in 2023.

10. Joint Clinical Advisory Committee on Covered Affiliations

The Executive Vice President for UC Health and the Chair of the Academic Senate will co-chair the Joint Clinical Advisory Committee on Covered Affiliations to review reports on affiliations, solicit feedback from stakeholders, and provide input on UCH policies on covered affiliations.

Per policy, members of the committee will include:

- the Executive Vice President for UCH or designee;
- the Academic Senate Chair or designee;
- the Chief Medical Officer of each UC academic health system or designee;

¹ Institute of Medicine (IOM). Crossing the Quality Chasm: A New Health System for the 21st Century. Washington, D.C: National Academy Press; 2001.

- an Academic Senate appointee who is an active (at least 0.5 FTE) clinician from each campus; with an academic health system; and
- three additional members selected by the President not representing either UCH or the Academic Senate.

The committee will meet three times a year as required by agenda items to support the review of the annual report to the Regents Health Services Committee in August. In this inaugural year, the committee will convene before the August 2022 Health Services Committee meeting to review policies, scope, implementation status, and the draft annual report.

11. Audit of Affiliations by Ethics, Compliance, and Audit Services (ECAS)

The policies require that ECAS conducts an audit of an appropriate sample of contracts with covered affiliates to ensure their adherence to the contracting guidelines after the December 2023 deadline. ECAS will include the audit on covered affiliations in the annual audit schedule reported to the Regents. In this first year of implementation, ECAS anticipates performing an interim audit to be launched in December 2022.

APPENDIX A: Implementation Status of UC Health Affiliations Policies as of 5/31/2022

Implementation Status of Health Affiliation Policies

As of May 31, 2022

KEY:	Implemented 	In Progress 	Not Started 
------	---	---	---

#	Category	Requirement Description	Policy	Policy Due Date	Implementation Date	Implementation Status						
						UCOP	UCD Health	UCI Health	UCLA Health	UCR Health	UCSD Health	UCSF Health
1	Moratorium on non-compliant contracts	Moratorium on new non-compliant agreements with covered affiliates	Regents & President's	07/01/21	07/01/21							
2	Contract Language	Contracts must include compliant language that: 1) recites UC's role as public entity and commitment to non-discrimination and evidence-based care; 2) requires all parties comply with federal and state anti-discrimination laws; 3) requires affiliates offer any procedure or service they provide on a non-discriminatory basis; 4) ensures no provisions that require UC or its personnel or trainees to enforce or abide by policy-based restrictions on care including, but not limited to, religious directives, or that include any "gag clauses" interfering with their ability to counsel all patients on their treatment options; 5) retains UC's option to terminate an agreement in its sole discretion including breach of UC providers' freedom to advise, refer, prescribe, or provide emergency items and services without restriction including any necessary items and services to any patient for whom referral or transfer to another facility would risk material deterioration to the patient's condition	Regents & President's		09/22/21							
3	Contract Language	A covered organization may not be granted responsibility or authority to operate or manage a UC facility or program on behalf of UC.	President's		09/22/21							
4	Contract Language	Document that the University's evidence-based standards of care govern the medical decisions made by its personnel.	President's		09/22/21							
5	Contract Language	Recite that, under the California Constitution UC must be "entirely independent of political or sectarian influence in the ... administration of its affairs."	President's		09/22/21							
6	Due Diligence	Document the rationale for the affiliation, including: (1) any anticipated risks and benefits to UC's mission; (2) any anticipated risks and benefits to the broader patient community; (3) the consequences of not proceeding with the transaction; and (4) verify access to policy-restricted services will be maintained or improved as a result of the affiliation	Regents & President's		9/22/2021							
7	Review and Approval	Local contracting offices confirm that contract meet all elements of the Affiliations Checklist; deviation must be escalated to local counsel and the VC for Health Sciences or designee for review	President's		9/13/2021							
8	Review and Approval	Submit new or renewed agreements or arrangements with accompanying documentation of rationale and impact to the Chancellor or designee for review and approval prior to execution	President's		9/13/2021							
9	Communication	Develop and implement process to inform UC patients, faculty, staff, and trainees: (i) about such restrictions at sites to which they may be referred or assigned; (ii) that such referrals or assignments are voluntary; and (iii) and that information about alternative sites for care, practice, and training will be provided upon request	Regents		06/30/22							

#	Category	Requirement Description	Policy	Policy Due Date	Implementation Date	Implementation Status						
						UCOP	UCD Health	UCI Health	UCLA Health	UCR Health	UCSD Health	UCSF Health
10	Communication	Inform faculty, staff, or trainees who may be invited to staff or train at a covered affiliate's site of: (i) the site's restrictions on care; (ii) any requirements the site has adopted that such individuals certify adherence to policy-based restrictions on care and the contractual agreements that nevertheless protect their rights to counsel, prescribe, and refer or transfer, as well as to provide emergency items and services, without limitation, including any necessary items and services to any patient for whom referral or transfer to another facility would risk material deterioration to the patient's condition; and (iii) that working or learning at the covered affiliate site is entirely voluntary and that if they have an objection, alternative sites will be identified.	President's		06/30/22	●	●	●	●	●	●	●
11	Communication	Document and communicate to personnel voluntarily performing services or training at covered facilities the expectation that they adhere to evidence-based standards of care and their professional judgment wherever they are providing services	President's		06/30/22	●	●	●	●	●	●	●
12	Communication	Develop a mechanism to inform its patients of limitations on services provided at an affiliate's facility that might otherwise be offered if the patient were at a UC facility. At a minimum, such limitations must be published on the applicable UC academic health center website.	President's		06/30/22	●	●	●	●	●	●	●
13	Complaint Resolution	Develop and implement processes for receiving, evaluating, and resolving complaints or grievances	Regents		04/30/22	●	●	●	●	●	●	●
14	Complaint Resolution	Identify for all UC trainees, faculty and staff working at a covered affiliate a contact at the UC Health location to whom they can reach out for assistance if they believe that their professional judgment or freedom to counsel patients, prescribe medication or services, or otherwise refer or transfer them to UC or other alternative locations for care, or to provide emergency items and services is being impeded at the affiliate's facility	President's		04/30/22	●	●	●	●	●	●	●
15	Complaint Resolution	Establish a formal process for UC Health patients receiving care at covered affiliate facilities to share concerns or complaints regarding their care	President's		04/30/22	●	●	●	●	●	●	●
16	Complaint Resolution	Identify an individual employed by UC and charged with reviewing and promptly resolving patient, trainee, faculty, and staff concerns or complaints related to care received or provided at covered affiliate facilities.	President's		04/30/22	●	●	●	●	●	●	●
17	Complaint Resolution	Any concerns raised about perceived impediments to accessing comprehensive reproductive health care, gender affirming services, or end-of-life care must be reported promptly to the UC Health location's Chief Executive Officer or designee.	President's		04/30/22	●	●	●	●	●	●	●
18	Transfer Process	Inform patients being transferred from UC to a covered facility about the restrictions and alternative options at UCH or other facilities.	President's		06/30/22	●	●	●	●	●	●	●
19	Transfer Process	Develop and implement process to transfer patients who need restricted services to a UC or other location where the services can be provided.	Regents & President's		06/30/22	●	●	●	●	●	●	●
20	Monitoring and Reporting	Provide annual report to Regents HSC 1) listing new and renewed agreements, 2) summarizing complaints or grievances, 3) documenting performance on standardized quality indicators, and 4) reporting on noncompliance	Regents & President's	1 year after policy implementation	08/17/22	●	●	●	●	●	●	●

APPENDIX C: Draft Report on Covered Affiliations through March 31, 2022

The following report is a preview of the first annual UC Health Report on Covered Affiliations, which will include data on covered health affiliations from July 1, 2021 through June 30, 2022 and will be presented to the Health Services Committee in August 2022.

This report preview includes data from July 1, 2021, through March 31, 2022. Section I includes a summary of data on covered affiliations and Section II provides details on each new, renewed, expired, or terminated agreement.

I. SUMMARY OF COVERED AFFILIATIONS

The University of California implemented a moratorium on new non-compliant health agreements with covered affiliates on July 1, 2021. All UC Health locations are now utilizing policy-compliant language in new and renewed agreements and will continue to amend all existing contracts through December 31, 2023. The following tables provide summary data on covered affiliations through March 31st, detailed information can be found in Section II.

Outlined in **Figure 1**, UC Health locations have entered into **27 new policy-compliant agreements and renewed 56 existing agreements with policy-compliant language**. They have also allowed **13 agreements to expire**, 11 of which were under negotiation at the time of this report, and 2 of which the department did not seek to renew. **One agreement** was terminated early and replaced with a new policy compliant agreement.

Figure 1. New/Renewed/Expired/Terminated Covered Agreements by UC Health Location 7/1/21 – 3/31/22

UC Health Location	New	Renewed	Expired	Terminated	Total
UCD	11	13	3	1*	28
UCI		7	5		12
UCLA	8	13	3		24
UCR	2				2
UCSD		2	1		3
UCSF	6	21	1		28
Total	27	56	13	1	97

**replaced with compliant agreement*

In below **Figure 2**, the updated agreements are refined by private/non-profit, such as Adventist Health, CommonSpirit Health/Dignity Health, Providence Health, Loma Linda University Health, Scripps Mercy Hospitals, and other local agreements and in **Figure 3**, they're refined by government entities such as Indian Health Services and US Department of Government Affairs.

Figure 2. New/Renewed/Expired/Terminated Covered Agreements for Private/Non-Profit Entities by UC Health Location 7/1/21 – 3/31/22

UC Health Location	New	Renewed	Expired	Terminated	Total
UCD	3	5	2		10
UCI		7	4		11
UCLA	1	9	2		12
UCR	1				1
UCSD		2			2
UCSF	3	16	1		20
Total	8	39	9	-	56

Figure 3. New/Renewed/Expired/Terminated Covered Agreements for Government Entities by UC Health Location 7/1/21 – 3/31/22

UC Health Location	New	Renewed	Expired	Terminated	Total
UCD	8	8	1	1*	18
UCI			1		1
UCLA	7	4	1		12
UCR	1				1
UCSD			1		1
UCSF	3	5			8
Total	19	17	4	1*	41

*replaced with compliant agreement

NEW/RENEWED AGREEMENTS

UC Health locations have entered into **27 new policy-compliant agreements**, largely with Veterans Affairs, and **renewed 56 existing agreements with policy-compliant language**. As outlined in **Figure 4**, these agreements are primarily for clinical services at Dignity Health, Providence Health, and Veterans Affairs or training agreements with Veterans Affairs.

Figure 4. New/Renewed Agreements by Covered Affiliate 7/1/21 – 3/31/22

Covered Affiliate	Administrative	Clinical Services	Joint Ventures	Lease	Research	Training	Total
Adventist Health		5				1	6
Dignity Health	3	15	1			2	21
Houston Methodist Hospital		1					1
Indian Health Services		5				1	6
Loma Linda		2					2
Providence Health	3	11		1		1	16
Scripps Health						1	1
Veterans Affairs		6			7	17	30
Total	6	45	1	1	7	23	83

EXPIRED/TERMINATED AGREEMENTS

UC Health locations have allowed **13 agreements to expire**, 11 of which were under negotiation at the time of this report, and 2 of which the department did not seek to renew. **One training agreement with Veterans Affairs was terminated** by UC Davis Health and replaced with a policy-compliant agreement. **Figure 5** provides an overview of covered affiliates and types of contracts that expired or were terminated.

Figure 5. Expired/Terminated Agreements by Covered Affiliate 7/1/21 – 3/31/22

Covered Affiliate	Clinical Services	Joint Ventures	Research	Training	Total
Adventist Health		1		1	2
Dignity Health	1			2	3
Providence Health	2			2	4
Veterans Affairs			1	4*	5
Total	3	1	1	9	14

**one agreement terminated and replaced with compliant agreement*
