

Office of the President

TO MEMBERS OF THE FINANCE AND CAPITAL STRATEGIES COMMITTEE:

ACTION ITEM

For Meeting of November 13, 2024

UNIVERSITY OF CALIFORNIA FINANCIAL REPORTS, 2024

EXECUTIVE SUMMARY

A significant development in 2024 was the expansion of the UC Health enterprise. In the current year, the University completed the purchase of six hospitals, physician practice groups, and outpatient facilities for its Irvine, Los Angeles, and San Diego Medical Centers, in exchange for \$1.6 billion. The acquisition of these facilities added 1,400 beds and 6,000 employees to expand the University's growing network of clinics and hospitals to better serve patients with safe, timely, and equitable access to high-quality health care.

The University's investment portfolio performed well in 2024, but despite strong performance and financial commitments from the State, revenues from primary activities only slightly exceeded expenses in FYE 2023-24. Employee salary and benefits expenses are the major drivers and will continue to increase in coming years. Future commitments requested by the State in the University's Compact with the Governor, as well as the outcomes of collective bargaining agreements will have significant impacts on UC revenues and expenses from primary activities in FYE 2025-26 and beyond. As a result, continued focus on budget containment is necessary.

RECOMMENDATION

The President of the University recommends that the Finance and Capital Strategies Committee recommend that the Regents adopt the 2023-24 Annual Financial Reports for the University of California, the University of California Retirement System, and the five University of California Medical Centers.

BACKGROUND

Attached are the June 30, 2024, annual financial reports for the following:

- The University of California.
- The University of California Retirement System: The University's Defined Benefit Plans (including University of California Retirement Plan and University of California Voluntary Retirement Incentive Program) and the University of California Retirement Savings Program (including the Defined Contribution, 403(b) and 457(b) Plans); and

- The five University of California Medical Centers: Davis, Irvine, UCLA, San Diego, and UCSF.

The University's operations continued to grow, principally at the medical centers, and expenses increased consistent with the overall growth in operations. In 2024, salaries and wages, representing the largest change, increased by \$2.6 billion due to an increase in full time employees and a general salary increase. The retiree health benefits expense decreased due to a higher discount rate.

The University of California received \$4.7 billion in State General Funds in the Budget Act of 2023. This represented an increase of \$329.2 million, or 7.5 percent, in ongoing funding over the 2022-23

budget. Additionally, the University received \$142.5 million in one-time funding for campus-specific projects and capital outlay for health research.

Financial Position

The University of California's financial position on June 30, 2024, is as follows:

<i>(in millions of dollars)</i>	2024	2023	2022

Total net position	\$4,847	(\$29)	\$462

The largest capital asset additions in 2024 were related to the medical center acquisitions and construction of housing and research facilities at various campuses.

In 2024, general revenue bonds totaling \$3.2 billion were issued to finance the acquisition, construction, improvement, and renovation of certain facilities of the University and refund general revenue bonds totaling \$1.6 billion and limited project revenue bonds totaling \$0.5 billion.

The net pension liability decreased in 2024 by \$2.9 billion. The change was driven by investment returns for the UC Retirement Plan (UCRP) portfolio. In 2024, market performance was favorable compared to expected returns. The obligation for retiree health benefits decreased due to changes in actuarial assumptions, including an increase in the discount rate and a decrease in plan participation and healthcare cost trend assumptions.

Retirement Plans (UCRP, UCRSP and PERS-VERIP)

Investment returns for the UCRP were 12.1 percent for 2024 as compared to 10.1 percent in 2023. Contributions to UCRP in 2024 and 2023 were \$4.3 billion and \$4 billion, respectively. Benefit payments in 2024 and 2023 were \$5.1 billion and \$4.8 billion, respectively.

The Regents determine the portion of the total contribution to be made by the employer (University) and by the employees (members). The University contribution rate for active members was 14 percent, 14 percent, and 15 percent of covered payroll for the years ended June 30, 2024, 2023 and 2022, respectively. The University contribution rate is 14.5 percent effective July 1, 2024, with 0.5 percent increases per year until reaching 18 percent on July 1, 2031.

Medical Centers

The medical centers' financial results for the year ended June 30, 2024, and 2023 are as follows:

<i>(in thousands of dollars)</i>	DAVIS	IRVINE	LOS ANGELES	SAN DIEGO	SAN FRANCISCO	TOTAL
